# **Find Your Niche**

Using evaluation to improve business communications

**November 1, 2018** 

## **About Innovation Network**

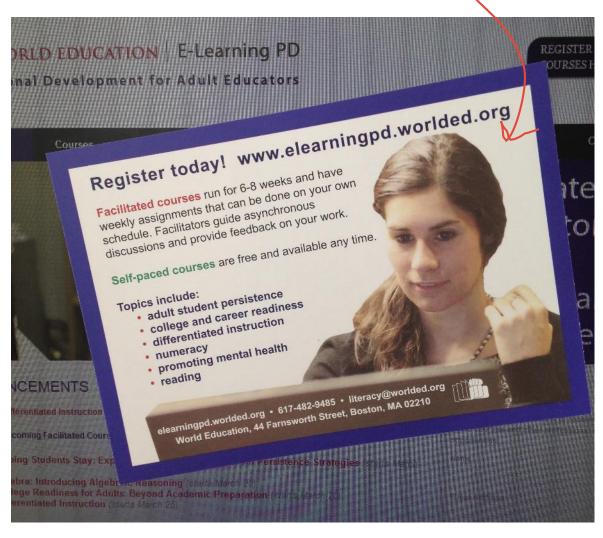

#### Our work is concentrated in six practice areas:

## **About Me**

That's me!

- 6 years in communications
- Master's of Social Work
- Evaluator at Innovation Network

#### **DEMONSTRATION OVERVIEW**

- 1. Project origins
- 2. Step-by-step approach
  - Phase I: Research
  - Phase II: Analysis
  - Phase III: Vision
  - Phase IV: Strategy
- 3. Resources

Please ask questions as we go!

# Background

## Approach

#### **PHASE I: RESEARCH**

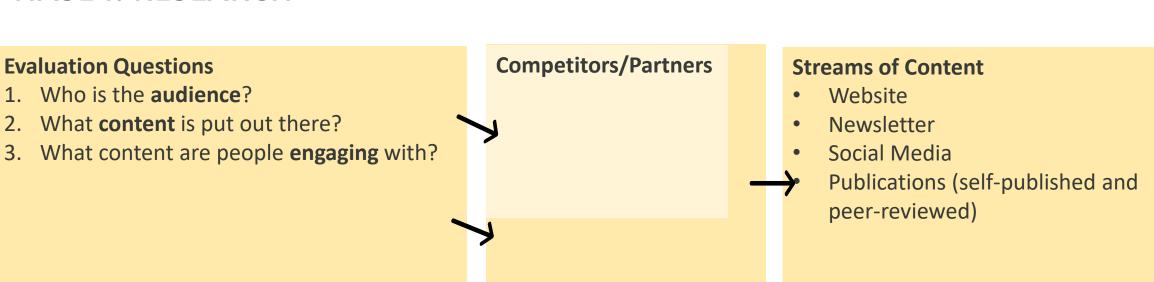

# Research

Phase I

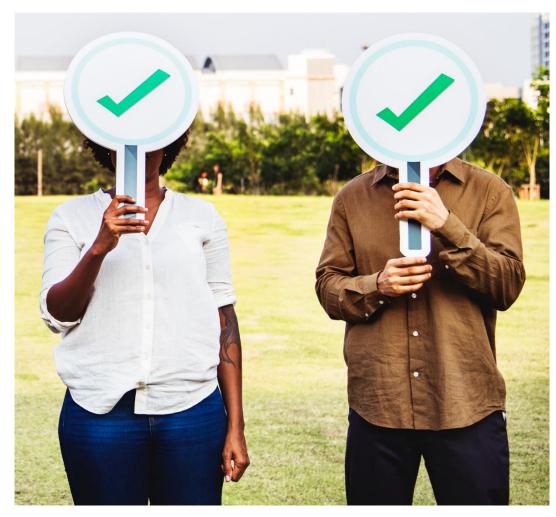

**Innovation Network** 

#### **PHASE I: RESEARCH**

## 1. Listed partners / competitors

#### Who else is working in your space?

#### Listed:

- Name
- Website
- Location
- Size
- Income (From 990)
- Org Type (private or no?)
- Areas of work
- Client
- Mission

### 2. Identified targets

Five targets selected

Diversity of location

Organizations <u>similar</u> to ours, and those we <u>aspire</u> to

### 3. Dove into targets' communications

Content							
Topics published	Types of materials posted	Length of content	Amount of content				

	Engagement	
Popular topics	Popular types of materials	Popular lengths

Audience					
Who is being targeted	Who is engaging with content				

# Analysis

Phase II

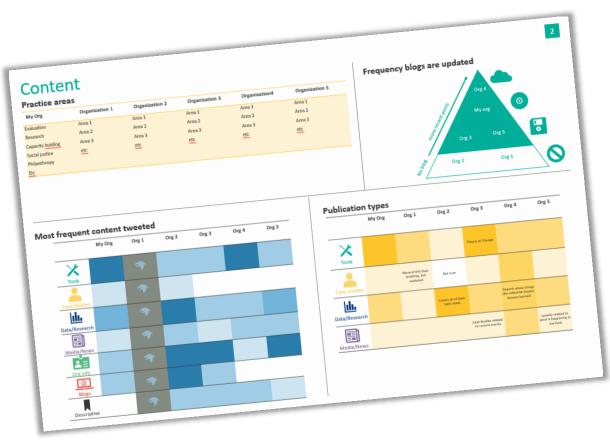

### 4. Reviewed by committee

- Communications
   Committee pulled out interesting information
- Decided what to include on data placemats
- Initial discussion

## 5. Reviewed by all staff

- Data Placemats at retreat
- Brainstormed takeaways and ideas

# 6. Analyzed all data

#### Across all media types:

1. Who do our competitors communicate to?

□ Where are the gaps?

# 2. What type of content do our competitors communicate about?

□ Where are the gaps?

#### 3. What content are people interested in?

□ What are the gaps?

#### 4. What are our strengths?

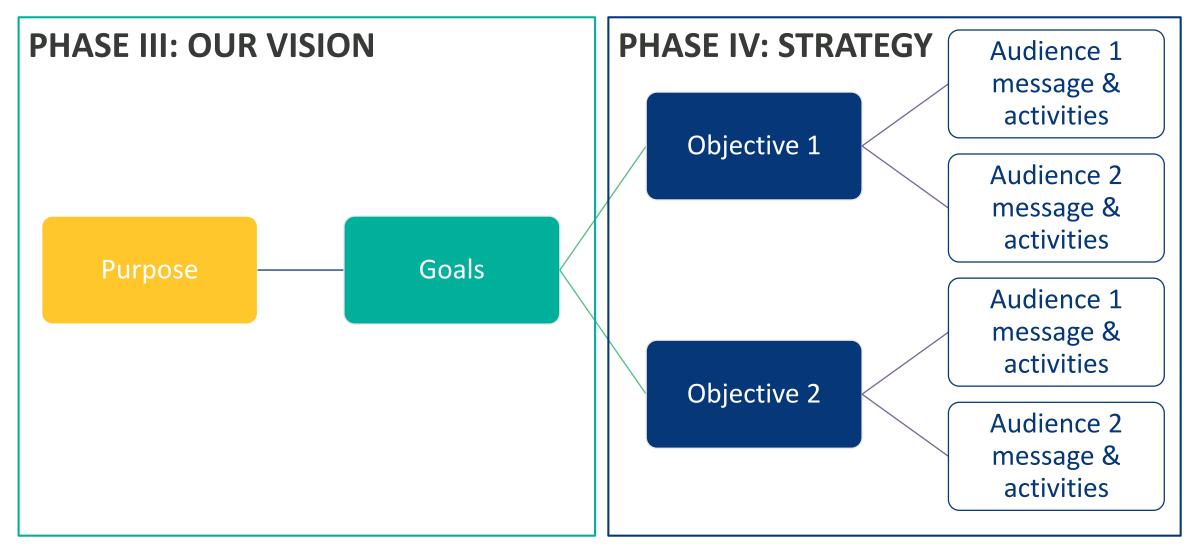

□ Where do we fall short?

# **Our Vision**

Phase III

#### **Communications Plan**

### 7. Developed a purpose and goals

#### **Statement of Purpose:**

<u>Why</u> are we communicating in the first place?

#### **Goals:**

Specifically, <u>what</u> do we want our organization to achieve in the next 3 years? Consider our organizational goals

# Final purpose and goals

#### **Statement of Purpose:**

Innovation Network communicates in order to:

- Create clarity about who we are and what we do,
- Promote evaluation and evaluative thinking in the social sector,
- Showcase our work and gain recognition, and
- Engage, build, and sustain relationships.

#### Goal #1:

Nonprofits are adept at describing their work through a framework such as Theory of Change

## **Decision-making process**

- Communications
   Committee brainstorm
- All-staff brainstorm
- Leadership Team refining and approval

### **Questions to consider**

#### **Refine goals by asking:**

- Is this a goal something we want our communications to achieve in the long run?
- Is this goal **tied to our organizational goals**?
- Does this goal make sense for where we are at as an organization right now?
- Is this goal specific enough that our small team can make progress towards it?

# Strategy

Phase IV

### 8. Developed intermediate objectives

#### **Statement of Purpose**

Goal
Objective:
What communications steps can you take to achieve your goal? Good objectives should be SMART.

# Final intermediate objectives

#### **Statement of Purpose**

#### Goal #1:

Nonprofits are adept at describing their work through a framework such as Theory of Change

#### **Objective #1:**

By the end of the year, increase by 50% the focus of messages to be on TOC and similar frameworks

#### **Objective #2:**

By the end of year 2, double the number of nonprofits developing a Logic Model through our Logic Model Builder on PointK

### **Questions to consider**

- Thinking backwards, what steps need to be achieved to meet this goal?
- Who is affected by this goal?
- Is the objective we created SMART?

S	<b>Specific</b> Be as concrete and focused as you can.
Μ	<b>Measurable</b> Ensure your objective is quantifiable. Can you easily put a number to it?
А	Attainable Is the objective realistic considering your current audience and capacity?
R	<b>Relevant</b> Choose meaningful objectives. Are they directly related to your goals?
т	<b>Time-bound</b> Decide the time period that is most useful.

### 9. Defined messages and activities

S	tatement o	f Purpose						
G	oal							
	Objective							
	Audience	What they need to know	Key Comms Messages	Methods/ channel	Timeline	Responsible party	Measures	

## Final messages and activities

#### **Statement of Purpose**

**Goal #1:** Nonprofits are adept at describing their work through a framework such as Theory of Change

**Objective #1:** By the end of the year, increase by 50% the focus of messages to be on TOC and similar frameworks

Audience	What they need to know	Key Comms Messages	Methods/ channel	Timeline	Responsible party	Measures
Nonprofits	- TOCs are useful - We have tools to help	- We are reliable and provide useful tools	- Newsletter - Twitter	- Newsletter article on TOC every month	Jane	<i>#TOC articles posted # opens to TOC resources</i>

## **Questions to consider**

Defining methods: Defining audience: Defining messages: Ensuring success: What types of Whose knowledge, media does this attitudes and behavior What do they need to must be changed in audience prefer? know? order to meet our What are some goal? Are there existing indicators or specific forums we can tap measures to show we Who is affected if we are making progress into? succeed in this goal? towards our goals? What is the basic What additional message we need to Who else might be get across? able to influence the materials could be primary audience? created?

### **10. Implement!**
